

Aim :

Experiment on Packet Capture Tool : Wireshark

- * Capture network
- * Decode Packet
- * Define filter
- * Analyze problem

DONE :

- * View network all networks and speeds
- * Viewing of all packets incoming

SO :

- 1) Allows card to intercept all network packet
- 2) No, ARP Packet do not
- 3) DNS primarily use UDP
- 4) HTTP protocol uses number 80 by
- 5) Broadcast In address

Results:

Thus, Capture tool can be studied.
